

MINECRAFT SURVIVAL CHECKLIST

First night

- Collect wood, craft a crafting table, and make stone tools.
- Secure food before sunset.
- Build or find a lit shelter and sleep when possible.

Early base

- Place torches around the shelter and nearby paths.
- Start a small wheat, carrot, or animal food source.
- Store spare tools, food, blocks, and a bed in a safe location.

Mining trip

- Bring a pickaxe, torches, food, blocks, and a water bucket.
- Mark the route home and avoid digging straight down.
- Keep valuable ores in a chest before taking bigger risks.

Next goals

- Upgrade to iron tools and armor.
- Enchant equipment after building a reliable experience source.
- Explore farther only after the base has renewable food and lighting.
